

# Inspired Teaching Demonstration School

## **ESY program, Summer 2025**

Extended School Year, or ESY, is an extension of special education services provided to students with Individualized Education Plans (IEPs) during the summer who have met specific criteria based on data collection and progress monitoring over the school year, inclusive of recoupment after holidays and multi-day breaks from school. ESY is discussed during scheduled IEP meetings.

The IEP team takes into consideration the following areas when determining if a student meets the criteria for ESY:

- Criterion 1: Impact of Break in Service on Critical Skills
- Criterion 2: Degree of Regression of Critical Skill
- Criterion 3: Time Required for Recoupment of Critical Skills

ITDS's ESY program in summer 2025 will take place 8:45am to 2:15pm, Monday-Friday, July 14-25, 2025.

If your student with an IEP has been determined eligible for ESY for summer 2025, the assigned compliance manager for your grade level will be in contact with you to discuss additional information for your student. If you have any questions or would like to discuss your student's ESY eligibility further please reach out to your designated compliance manager.
