### DC PCSB OBSERVATIONS

The LEA's financial performance remained healthy in FY 2021. To strengthen liquidity in FY 2021, the LEA borrowed \$1.8M to complete an additional \$0.6M in leasehold improvements for the property at 301 Douglas Street NE. At FYE 2021, days of cash on hand rose 8% to 232 days, above the 165 days sector median. As shown in the following chart, cash flow from operations margin decreased from 22% in FY 2020 to 1% in FY 2021, barely above the -2% target. The LEA undertook a construction project that spanned from FY 2020 to FY 2021. The key cause for the \$2.6M reduction in cash flow from operations from FYE 2020 to FYE 2021 is the \$0.9M decrease in accounts payable, caused by the LEA's payment of accrued construction invoices in FY 2021.

Other elements that contributed to the cash flow from operations decrease comprise: a \$0.1M decrease in operating revenues; a \$0.6M increase in operating expenses (excluding depreciation and amortization), primarily for the \$0.2M purchase of COVID-19 protective supplies, \$0.1M increase in occupancy expenses, \$0.1M increase in professional fees, and \$0.1M increase in contracted instruction fees; and a \$0.4M increase in grants receivable.
